

TEAM SPACE*

Free and empowered to work at your best, wherever you are, and whatever device or channel.

Team Spaces work around people not rooms. They are intelligent team focal points where team members can communicate, save relevant information and plan events based on dedicated topics, from any device.

Work directly in the Team Space, continue using Microsoft Outlook, Gmail or other email clients, or combine the best of both. It doesn't matter. The information and documents you share and receive will be saved in the relevant project Team Space, meaning everything is easy to find, and traceable.

Work is organised, accessible, and secure. Working becomes liberating, focused, and productive. And with smart, intuitive applications added over time, we'll help you perform at your best.

ENHANCED COMMUNICATION

Integrated ways to enhance your team collaboration around specific projects.

- Audio and video meetings
- Chat
- Share your screen
- All your normal communication tools¹ such as mail, messages, notes, tasks, calendar and address book integrate seamlessly into your Team Space
- From the Team Space you can access your telephone numbers and make calls. This puts all your contacts in one place and avoids conflicts between different phone configurations.

FILE SHARING

Share ideas immediately and securely, with colleagues and collaborators.

- Data is synchronised and encrypted automatically
- Notifications and version tracking help make it easy to follow communication, and a safe way to migrate or remove data
- Assign files to a specific Team Space, meaning searching for files is a thing of the past

MULTIFUNCTION PRINTING

Multifunction printing capabilities working harder for you.

- High resolution printing, scanning, copying or faxing from any device or location
- Scanned documents and incoming faxes are digitally converted to ensure anywhere access, and can be added to a relevant Team Space

SMART FEATURES

A continually evolving and growing suite of intelligent applications that improve workplace productivity.

- Contextual replies – automatically suggested responses to emails based on content, previous answers and wider contextual information such as customers asking for specific product information
- Executive summaries – key words in emails and documents are automatically highlighted so you only need focus on what matters most
- Additional smart features are added as they become available

ADDITIONAL APPS

Access to additional applications purchased through Konica Minolta MarketPlace.

- Applications are fully integrated into the Team Space environment or accessed separately via your web browser

A BETTER WAY OF WORKING

* Accessed via a web based interface. Desktop and mobile compatibility: Chrome, Firefox, Safari, Microsoft Edge.

¹ Integration by plug-in for Microsoft Outlook, Gmail and other market standard solutions available.
